Cycling

Languages

German

Englisch

Dutch

#### **Profiles**

in David Moll

Akashic101

### Work-Experience

xapling GmbH November 2021 - June 2025

Frontend Engineer UI/UX https://xapling.de/

Dr. Auffenberg & Partner GbR January 2021 - September 2021

Postal administration

Education

b.i.b International College October 2015 - July 2018

State-certified design assistant

b.i.b International College October 2018 - September 2020

State-certified computer scientist, multimedia

**Projects** 

Project "CRUD"

January 2025 - May 2025

Frontend- & Backend-Developer, UI- & UX-Development, Testing

Development of a CRUD system for managing and editing employee data. A strong focus was placed on creating a clear and easily expandable connection between the front and back ends, as well as 100% test coverage using Playwright and Jest.

Projekt "AppCore"

August 2023 - December 2024

Frontend-Developer, UI- & UX-

Development, Testing & Management

Development and maintenance of web components for a cloud platform that connects sales-related processes in energy supply companies (EVU). The focus of my work was on creating and implementing web components, testing them and fixing bugs.

Projekt "Broker Transformation"

June 2021 - December 2022

BiPRO expert, BiPRO tester/test automation engineer

Continuation of the digitisation of services for sales partners with a focus on BiPRO services. The core of the activity lies in the area of BiPRO 430 services and their expansion to include further sub-standards and their various use cases.

Projekt "xTools & xApp"

November 2021 - November 2022

Frontend-Developer, UI- & UX-

Development

Erstellung einer Plattform zur (teil-) automatischen Anlage- und Weiterverarbeitung von Mitarbeiter-Auslagen und einer weiteren Plattform zur Automatisierung von Projektfindungen für Mitarbeiter.

Digitisation of historical documents

December 2022 - April 2023

project management

Digitisation and provision of various historical documents with text recognition. All documents were processed using optical character recognition (OCR) and a model specially trained for old scripts to make all documents searchable and available online.

## Volunteer work

Special Olympics World Games Berlin 2023

June 2023

Sponsoring & Fundraising Support
